Reason

I would like to request leave from work due to personal health reasons that require my immediate attention. After consulting with a medical professional, I have been advised to take time off to rest and recover properly to ensure a full return to productivity. This leave will allow me to focus on treatment without the added stress of work responsibilities. I am committed to ensuring a smooth transition of my duties and am happy to assist in any way to minimize disruption during my absence. Thank you for your understanding and support during this time.
